DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Knoll on 12-09-2003. The application has been amended as follows:

In line 6 of claim 1, "stepped" has been changed to – stepper--.

Allowable Subject Matter

1. Claims 1,3-7, 9-17 and 19 are allowed. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or obviously suggest the claimed invention.

2. Specifically, no teaching or obvious suggestion was found of the limitation "a sampler rod having engineering leaks for introducing environmental matter into said reservoir, said sampler rod being within said

reservoir and slidable out through an opposite wall of the said housing" in combination with the other recited limitations as in claim 1.

3. Claims 3-7,9-17, and 19 are allowed by virtue of their dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Pat No 6,288,783 issued to Auad is considered relevant since it teaches an analyzer having a stepper motor.
